

PENETRATING OIL

Spectra Lube Penetrating Oil is chemically engineered for professionals that require a high-performance solvent that can quickly cut through rust/corrosion, dirt and grease penetrating the smallest cracks. Fortified with molybdenum disulfide, this component is drawn in for easy separation leaving a long-lasting lubricant film, it's there when you need it the most! Spectra Lube Penetrating Oil contains the most effective wetting agents that increase the spreading and penetrating properties that meets the toughest industrial standards. Use on nuts, bolts, clamps, linkage, tools etc.

Industry uses:

- Ag
- Automotive
- Heavy-duty
- Construction
- Industrial

Typical Properties: The values are typical production values. It is the responsibility of the installer and/or purchaser to determine if these specifications are adequate and proper for the intended application.

Property	Spectra Lube Penetrating Oil	Method
Propellant	Propane and n-Butane	
Flash Point	320°F (160°C) Oil, typical	ASTM D 92
VOC's	48%	Calculated
Spray Pattern	Narrow Stream	
Texture	Light Oil with Fine MOS ₂ Particulate	
Color	Gray	
Consistency	Light	
Specific Gravity	0.8665 for Concentrate, typical	ASTM D 1298

Available in 12/1 cases. Item Number 461291

For industrial use only. Refer to SDS for further information. Avoid food contamination during applications and storage.
