

Marine Express is engineered with the challenges and concerns of marine gasoline engine owners. These engines face unique challenges including load changes, moisture, and ethanol blends. The patented technology of Marine Express controls moisture and issues related to ethanol in fuels while providing consistent power, improved acceleration, advanced protection, and fuel stability you can trust.

FEATURES AND BENEFITS

- Moisture control to keep tanks drier and stable
- Maximized horsepower, torque, and acceleration
- Improved efficiency and protection to run longer between fill ups
- Reduced particulate matter emissions for cleaner air and less carbon buildup
- Improved corrosion protection of internal engine components
- Built in storage stability with no need for additional additives between excursions
- Patented detergents to keep engines clean inside and out
- Clean up and removal of internal power and efficiency robbing deposits
- Lubricity enhancers protect internal engine injectors and pumps for wear

TYPICAL PROPERTIES	MARINE EXPRESS
Physical State	Liquid
Color	Clear Amber
Density, lbs./gal.	7.63
Specific Gravity	0.915
Flash Point (PMCC)	122.9°F (50.5°C)
Viscosity @ 104°F (40°C), cST	20.5
Viscosity @ 68°F (20°C), cST	43.3

RECOMMENDED USAGE

- Safe for use in all gasoline engines including 2 and 4-stroke engines
- Safe for use in Ethanol blends up to 50%

MARINE EXPRESS
1 gallon (liter) treats 2000 gallons (liters)

STORAGE AND HANDLING

Store and use away from heat, sparks, open flame or any other ignition source. Store in accordance with local regulations. Store in a dry, cool and well-ventilated area, away from incompatible materials, see SDS. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

Shelf Life: 24 Months
